

## Electric Lift Table

## Lift Table

### Ergonomic solution for different working situation.

Until now, most solutions are either not ergonomic and affect health, or they do not comply with the needs of the company.

The innovation: **electric lifting columns** are **combined** with our **profile system**. Thus, the benefits from both principles (ergonomy and modularity) allow us to produce exactly the solution you need.

Abb. 3) control unit

### Advantages of our tables

- Individually designed (dimensions, proportions) to meet your needs
- Selection of components available (light, trays etc.)
- Also available for clean rooms
